Web Analytics

**Art Directed**, project managed and provided UI and graphic design for the corporate website redesign of Tripwire.com. Led a team of web designers, production artists and copywriters to deliver the project against a challenging 3 month deadline. Utilized InDesign and Photoshop Smart Objects to maintain a complete reference guide for every page on the site to streamline the hand-off of PSDs to the client development team.

**Designed** the UI/UX for a custom media player that provided playback of everything from podcasts, webcasts, SWFs, video and YouTube content. Worked with a Senior Flex Developer, utilizing ActionScript 3.0, a MVC framework and OOP best practices.

**Designed** corporate, e-commerce, campaign and DRTV websites for Tripwire, Aligntech Institute, KitchenAid, Electrolux, Philips, RichardSolo, YoPlus/General Mills and more. Worked within established brand guidelines and applied brands appropriately to the web. Worked to establish new online branding when required.

**Developed** site maps, information architecture and wireframes for the development of client websites and to communicate internally and with the client at various stages of a project.

**Experienced** with Adobe CS4 Creative Suite (Photoshop, Illustrator, AfterEffects, Flash, InDesign) for the design and development of web sites, prototypes, banners, motion graphics, and other creative deliverables. Hand code HTML, CSS and ActionScript 2.0/3.0. Used libraries such as jQuery, and platforms like WordPress.

**Developed** RadiSys Product & Application Guide, a 20-page, semi-annual magazine distributed to multiple channels, including 50,000+ national distribution through industry magazines.

**Designed** and managed the development of the RadiSys Product & Application Guide web site. Site incorporated content from print version, with integrated search, enhanced features, RSS feeds, 360° product shots, and an easy-to-use navigation bar for articles.

**Managed** the development of the RadiSys Corporate web site, including establishing annual plans, introducing new technologies and pushing site innovation.

**Maintained** the overall RadiSys brand, ensuring that it meets corporate guidelines.

**Integrated** corporate wide, new branding developed by an external agency, and established a new document system based on the established brand.

**Overseen** and managed the integration of an acquired company website into the existing RadiSys.com site structure in a one-month timeframe to meet the deadline given by executive team.

**Designed** and produce graphics for collateral material and trade shows including tradeshow booths.

**Produced** short video of CEO that provided a financial overview of RadiSys Corporation for investors.

**Managed** external vendors, contract web developer and summer intern.

**Created** promotional ad campaigns as necessary for various internal business units.
